## **Business Process Engineer Lead**

DirectViz Solutions, LLC, a high-level strategic consulting services firm that meets mission needs for commercial and government clients, is seeking a Business Process Engineer Lead. This position will be located at Ft. Belvoir, VA.

### **Required Skills:**

- Responsible for effective transitioning of existing IT project teams and the facilitation of project teams in the accomplishment of project activities and objectives. Reengineering projects may include review of commercial off-the-shelf (COTS)/government off-the-shelf (GOTS) hardware and software; COTS/GOTS communication equipment; C4IM Systems including: Local, Metropolitan, and Wide Area Networks; storage devices, workstations, laptops and servers (of different types, such as email and Web servers); printers, copiers, scanners for effective operation.
- Conduct group facilitation, interviewing, training, and provide additional forms of knowledge transfer for its personnel.
- Evaluate current IT project management processes and documentation and recommend improvements. Upon government approval by the G6 Project Management Chief, update existing documentation.
- Coordinate between multiple projects teams to ensure enterprise-wide integration of reengineering efforts.
- Provide daily supervision and direction to Business Process and Reengineering personnel.
- Document activity and data modeling, develop modern business methods, and identify best practices.
- Create and assess performance measurements.

### **Qualifications:**

#### **TS/SCI Clearance Required**

- BS or equivalent,
- Lean Six Sigma or ITIL
- Experience: 10-12 Years

### **Responsibilities:**

- Perform the duties of PWS 5.4 with no supervision; provide expert business process reengineering methods and approaches to accomplish INSCOM needs; use strong communication and facilitation skills to coordinate/lead collaborative meetings, interviews, and training events; maintain excellent document/organization skills
