INFORMATION ASSURANCE LEAD

DirectViz Solutions, LLC, a high-level strategic consulting services firm that meets mission needs for commercial and government clients, is seeking a full-time Information Assurance Lead Engineer supporting the Defense Information Systems Network (DISN) Operational Support Systems (OSS) Division at Defense Information Systems Agency (DISA) Headquarter in Fort Meade, MD.

- Direct and Lead IA activities for a team of IA and Operations personnel.
- Engage senior government leadership in support of IA related activities.
- Maintain day-to-day security posture and continuous monitoring of IS including security event log review and analysis.
- Ensure system security measures comply with applicable government policies. Provide configuration management and accurately assess the impact of modifications and vulnerabilities for each system.
- Provide support to the Government Information Systems Security Manager (ISSM) for maintaining appropriate operation information assurance (IA) posture for programs.
- Conduct reviews and technical inspections (as prescribed by the Government Lead ISSM) to identify and mitigate potential security weaknesses, and ensure that all security features applied to a system are implemented and functional.
- Assist the Government ISSM in developing, monitoring and resolving Plan of Action and Milestones (POA&M) to mitigate system vulnerabilities on assigned Information Systems.
- Draft and/or prepare and maintain security Assessment and Authorization documentation (e.g., IA SOP, SSP, MSSP, RAR, SCTM)

Requirements:

- Bachelor's Degree in Computer Science or equivalent experience
- DoD Directive 8570 Information Assurance Technical (IAT) Level II compliant

Basic Qualifications:

- Experience as an ISSO/ISSM implementing DoD controls.
- Have or obtain appropriate DoD 8570 certification per DoD Directive 8570.1 within 3 months upon being hired.
- Have an active SECRET security clearance.
- Process oriented approach with the ability to break down complex challenges into executable tasks.
- Demonstrated experience leading teams of 7-10 to support Information Assurance Operational activities including vulnerability assessment, POA&M, remediation.
- Maintains awareness of upcoming customer / government driven changes and challenges and suggests approaches to meet those challenges
- Customer/mission focused
- Excellent time management skills; keeps commitments

Desired Qualifications:

- Previous experience working as a security professional in a DoD environment
- Familiarity with vulnerability scans, A&A, and POA&Ms
- Excellent communications skills
