INFO ASSURANCE/SYSTEMS ADMINISTRATOR

DirectViz Solutions, LLC, a high-level strategic consulting services firm that meets mission needs for commercial and government clients, is seeking a full-time Information Assurance/Systems Administration Specialist for a DoD Federal Government customer at DMDC located at Marks Center in Alexandria, VA or Seaside, CA.

Responsibilities:

- Manage Vulnerability and SCAP patching reporting and compliance.
- Maintain system security in compliance with Department of Defense (DoD) and supporting vendor requirements.
- Analyze Windows/UNIX Systems, check processes and log files, and retrieve and review information contained within logs for troubleshooting. Apply OS patches and upgrades on a regular basis, and upgrade administrative tools and utilities. Configure / add new services as necessary.
- Working knowledge of Department of Defense Information Assurance Certification and Accreditation Process (DIACAP), Risk Management Framework (RMF), and Plans of Actions and Milestones (POA&M).
- Will be responsible for analyzing scans and remediating system vulnerabilities.
- Work with the CIO/Cybersecurity branch to complete patching of vulnerabilities, and testing of system/server images.
- Design, develop, document, analyze, create, test, or modify computer systems or programs, including prototypes, based on and related to, user or system design specifications
- ACAS scan management:
 - Compiling vulnerability scan results against asset host and Internet Protocol (IP)s
 - Managing/Updating POA&M and mitigating vulnerability risks abased on categories I, II, III
 - Security and systems administration integration.
 - Recommend schedule registry modifications, Operation Systems (OS) hardening, patching and updates, to Sys Admin staff.

Requirements:

- Secret Clearance
- CompTIA Security+
- Assured Compliance Assessment Solution (ACAS)
- Certified Advance Security Practitioner (CASP) a plus
- MCSA a plus

Experience in the following areas:

- Previous Work in a large multi- location Enterprise DOD Network
- ACAS
- IAVM/STIG familiarity
- System patching and vulnerability mitigation
- Windows desktop and server experience.
