System Administrator - Intermediate

DirectViz Solutions, LLC, a high-level strategic consulting services firm that meets mission needs for commercial and government clients, is seeking a full-time System Administrator to provide system administration for the Defense Information Systems Agency customer at DISA headquarters in Fort Meade, MD. The System Administrator will perform systems administration for Government Off-the-Shelf (GOTS) and Commercial Off-the-Shelf (COTS) products for the Department of Defense and Mission Partner's Telecommunications and Infrastructure Network. This task requires strong attention to detail and the ability to work under tight deadlines.

Responsibilities:

- Provide technical expertise and guidance in support of the sustainment of the Operational Support System (OSS)
- Maintain continued system performance and stability
- Follow strict procedures to ensure integrity of the OSS
- Identify enhancements and improvements to the OSS systems and/or sustainment processes to improve efficiency and overall data integrity of the OSS
- Maintain all network and system architecture and design documents in accordance with set Standard Operating Procedures
- Provide assistance in the procurement of components and services to support system maintenance, implementation and operation
- Evaluate and recommend hardware and protocol alternatives to be used in the customer systems architecture
- Support Information Assurance personnel to assure security architecture, design, and implementation is in accordance with DoD Regulations

Requirements:

- Active Secret Clearance
- Bachelor's Degree in Computer Science or equivalent experience
- CompTIA Security+
- Must be US Citizen
- Must have excellent Client handling skills
- Dual experience in both Unix and Windows preferred

3+ years in:

- Designing, implementing and maintaining Windows Server, Solaris 10 systems, or UNIX systems.

Desired Skills/Certifications:

- ITIL v3 Foundation Certification
- Sun Certified Solaris Administrator
- Advanced proficiency in the Solaris operating system
- Advanced proficiency in the Windows Server operating system
- Excellent written and verbal communication skills and client focus a must
- Ability to work in a large team environment with other SMEs of different technical backgrounds
- Microsoft Certified System Administrator or Microsoft Certified IT Professional - Server Administration
- Working knowledge of OSSs and its components such as Network Fault and Performance Management, Change and Configuration Management, Trouble Ticketing Systems, Enterprise Dash boarding, Data Integration and Reporting
- Proficiency in industry standard desktop applications especially Microsoft Visio, Office and specialized architecting tools such as SPARX Enterprise Architect
- Advanced proficiency in scripting languages especially PERL, JavaScript, TKL, and UNIX Shell Scripting
