

ITES-3S offers decentralized ordering with no contract access fee charged to agencies awarding against it. The ITES-3S vehicle replaces ITES-2S and provides a five (5) year base with four (4) option years. Managed by the U.S. Army's Computer Hardware, Enterprise Software and Solutions (CHES) Program, ITES-3S is an Indefinite Delivery/Indefinite Quantity (IDIQ) vehicle available to Department of Defense (DoD) and Federal civilian agencies.
